Key Points and Issues For November 2009

Total Pension Fund

- For the month of November, the fund was up 2.70% versus 2.72% for the benchmark. Estimated performance for the pension funds for the fiscal year-to-date ending on November 30, 2009 is 13.61% versus 13.96% for the Council benchmark. For the fiscal year-to-date period, we underperformed in both our domestic and international equity portfolios due to having a lower risk profile than the overall market (in particular, we remain underexposed to the financial services sector). The underperformance was mostly offset by our overweight position in public equities, which were the best performing asset class since June 30. Total pension fund assets as of November 30, 2009 were \$68.5 billion, up from \$63.2 billion as of June 30, 2009. We estimate that net benefit payments (i.e., net cash outflows) from the fund since June 30, 2009 were \$1.8 billion.
- Investment activity in the fund was relatively light in November. We were net sellers of \$119.9 million in domestic equities, but net buyers of \$95.9 million in international developed markets equities. Within domestic fixed income, we were net buyers of \$120.9 million, consisting primarily of investment grade corporate bonds.
- Even though we have concerns about the sustainability of the global economic recovery, we believe that corporate profits will remain strong and low interest rates will cause investors to seek higher returns from stocks and longer-term bonds. Because of this, we continue to be overweight in global equities relative to the Council's target asset allocation. Within the fixed income portfolio, we are also overweight in corporate bonds relative to the Barclays Long/Government/Credit Index, the benchmark for the fixed income portfolio.

Domestic Equity

- Performance for Common Pension Fund A for November was 5.39% versus 5.72% for the S&P 1500 Index, the benchmark for the domestic equity portfolio. For the first five months of the fiscal year, Common Pension Fund A returned 18.89% versus 19.97% for the benchmark. The main factor impacting our relative performance for the fiscal year is our cash position and stock selection within the industrial and technology sectors.
- As stated above, net sales of equities in the portfolio in November were \$119.9 million. As in October, the major activity occurred in the health care sector, where we were net sellers of \$57.1 million. Roughly \$74 million was exchanged for Merck and we received \$62.2 million in cash as part of the Merck takeover.

Other sectors with significant net sales were financials and energy. Individual names that were sold in these sectors include Goldman Sachs, Bank of New York Mellon and Exxon Mobil. Partially offsetting these sales were purchases of \$60.6 million of AT&T and Verizon within the telecommunications sector.

- As of November 30, 2009, the portfolio is overweight in the basic materials, technology, utilities and consumer staples sectors. We are underweight in the financial services, telecommunications, consumer discretionary, health care and industrial sectors.

Domestic Fixed Income

- Performance for Common Pension Fund B for November was up 1.65%. Excluding our TIPS and high-yield portfolios contained within Common Pension Fund B, performance was 1.32%. This compares to 1.41% for the Barclays Long Government/Credit Index (which also excludes TIPS and high yield), which is our benchmark for the fixed income portfolio. For the fiscal year-to-date period, Common Pension Fund B (excluding TIPS and high yield) returned 10.54% versus 9.25% for the Barclays Long Government/Credit Index. The duration of Common Pension Fund B (excluding TIPS and high yield) was 10.58 years as of November 30, 2009, versus 12.11 years for the Barclays Long U.S. Government/Credit Index.
- Our high yield portfolio, which now includes the long-only bank loan funds that were transferred from Common Pension Fund E, was up 0.58% for November versus 1.01% for the Barclays High Yield Index. The high yield portfolio is up 18.15% for the fiscal year-to-date period, and 59.37% for calendar year 2009. The TIPS portfolio was up 3.82% in November and 7.72% for the fiscal year.
- We had net purchases of \$120.9 million of domestic fixed income securities in November, consisting primarily of investment grade corporate bonds. Major purchases in the corporate bond portfolio included Cisco, Abbott Labs, Deere, Duke Energy, Emerson Electric, Raytheon and Verizon.

International Equity/Fixed Income

- Common Pension Fund D returned 2.40% in November versus a return of 2.12% for the Custom International Developed Market Index, the benchmark for the international developed markets portfolio, which is calculated by the Division and excludes those names deemed ineligible for investment under the State's Sudan and Iran Divestment Laws. For the fiscal year-to-date period, the portfolio was up 19.48% versus 20.71% for the benchmark. The developed markets equity portion of Common Pension Fund D returned 19.45% for the fiscal year-to-date period, the international sovereign debt portfolio returned 8.57%, and the emerging markets equity portfolio returned 27.72%.

- We were net buyers of \$95.9 million of international developed market equities in November. The major purchases were in industrial and health care stocks. The major names that were purchased include Atlantia (\$52.3 million), Vinci (\$34.4 million), Daimler (\$25.1 million) and Merck KGAA (\$24.8 million). The two major sales for the month were Fiat (\$47.9 million) and Transocean (\$18.1 million).
- Carnival Corporation, General Maritime Corp., and Fresh Del Monte Produce, Inc, incorporated in Panama, the Marshall Islands and Cayman Islands, respectively, will be classified as U.S based companies based upon our review of the various factors as set forth in the State Investment Council Regulations.

Alternatives

- During November we funded \$106.0 million of commitments to alternative investments. Major investments include \$15.0 million to Sheridan Production Partners, \$14.9 million to Avenue Special Situation Fund, and \$10.0 million to HIG Bayside.

Cash Management Fund

- Total assets in the Cash Management Fund were \$11.9 billion as of November 30, 2009. The current yield is 0.43% for state participants and 0.32% for “non-State” participants.

Footnotes

* Not Yet Funded as of November 30, 2009

(1) Represents investments made to the underlying funds plus capitalized expenses paid, less recallable returns of capital. A portion of the funded amount may not reduce New Jersey Portfolio's remaining commitment to the underlying funds. (2) Represents remaining commitments calculated by subtracting total capital contributions for investments and inside expenses from total commitment and adding back recallable returns of capital. A portion of the funded amount may not reduce New Jersey Portfolio's remaining commitment to the underlying funds, (and therefore the commitment less the funded amount may not equal the remaining commitment) (3) Represents total proceeds returned by underlying funds, excluding recallable returns of capital. (4) Commitment increased by \$250M on 7/20/06 (5) Commitment increased by \$200M on 11/06/06 (6) Commitment increased by \$25M on 3/15/07 (7) Corresponds to €40.0 million (8) Corresponds to €59 million (9) Reduced from \$50M to \$40M at closing (10) Increase from £17.5 to £25 million on 5/2008 (11) Corresponds to €40.0 million (12) Commitment increased by \$100M on 12/2007 (13) Corresponds to € 106.25 million (14) Commitment increased from 50 to 75 millions. (15) Contribution excess commitment due to dividends reinvested.
