DEPARTMENT OF PERSONNEL
OVERVIEW

The mission of the Department of Personnel is to develop and administer an effective, efficient and comprehensive personnel system based on merit and sound management principles, which fosters the objectives of government, ensures equitable treatment of employees and serves the best interest of the public. The recommended budget provides funding of $25.4 million in Direct State Services which is a decrease of $500,000 from fiscal 1997.

The reduction to the Human Resource Development Institute of $1.1 million will be achieved by reducing certain in–house training functions. However, this reduction will be offset by $500,000 for the purchase of contract training services and $336,000 for the purchase of alternative training methods such as CD ROM or video based computer training.

The Department’s State and Local Government Operations unit will continue its reengineering efforts aimed at improving the way it conducts its business affairs. A statewide local government pilot program, featuring less cumbersome civil service rules, will continue to be made available to interested local jurisdictions. Alternatives to speed testing processes through use of new testing methods and instruments are under development. New methods of communicating job announcements to the public are also being researched, including an effort to achieve improved efficiency and effectiveness via Internet access. Further progress is planned toward the goal of replacing the existing job classification and compensation systems with an appropriate model, which will be less complex and costly to administer, and which will substantially reduce the number of job classifications and which will maintain internal equity between jobs while relating compensation to the marketplace.

Continued funding is provided in the Division of Merit Services which is responsible for processing all written appeals including examination challenges, layoff rights, sick leave injuries, and equal employment opportunity claims. Failure to process appeals in a timely fashion may result in additional high costs to the State. The Department is actively exploring ways to streamline and expedite the appeals process.

The Human Resource Development Institute, by providing the employee training programs required to maintain certifications of State hospitals, developmental centers, day care centers, and case workers, enables the State to qualify for hundreds of millions of dollars in federal reimbursement funding.
