**TOPIC: INTEREST RATES ASSESSED FOR 2008**

---

As a result of the changes in the prime rate and in accordance with the Taxpayers' Bill of Rights, the interest rate for the remainder of 2008 (April 1 – December 31, 2008) has been reduced to **9%**. The rate for the first three months of 2008 (January 1 – March 31, 2008) was 10.50%.

Under the Taxpayers' Bill of Rights, interest assessed on outstanding tax balances is Prime Rate plus 3%. *Prime Rate* for this purpose is the average predominant prime rate, as determined by the Board of Governors of the Federal Reserve System, that was in effect on December 1 of the year prior to the year in which the tax became due. At any time that the Director determines that the prime rate varies by more than one percentage point from the rate previously determined, the Director shall redetermine the prime rate to be that quoted prime rate for subsequent calendar quarters of the year in which the payments become due.

At the end of each calendar year any tax, penalties, and interest remaining due (unpaid) will become part of the balance on which interest is charged.

Listed below is the Federal Reserve prime rate and assessed interest rate history.
